**LIFE IS
STRESSFUL**

HERE IN NEW ORLEANS

LIFE IS AN ADVENTURE!

A UNIQUE MESSAGING OPPORTUNITY

New Orleans Television is part of the Destination Network, a visitor information network serving resort and destination cities in the Southeast.

No other network reaches the audience we do as effectively as we do, and that is important because, once out of their normal routine, travelers are proven to be more *present* in whatever they were doing, and they are eager to try new things.

A UNIQUE MESSAGING OPPORTUNITY

We are not traditional TV. We are a visitor information service delivered *on* the TV in the quiet comfort and safety of hotel and resort rooms.

Viewers need, and are actively seeking, the information we provide.

A UNIQUE MESSAGING OPPORTUNITY

THE DESTINATION NETWORK

We are always there for them, 24/7/365... on their time table.

We are available when they want, and we air *only* what they want.

We deliver a rich flow of uplifting, compelling stories... an ideal environment for ads, and, we offer many unique opportunities for our advertisers to become part of the destination's story.

THE DESTINATION NETWORK

We are 100% local.

We are 100% good news.

We are beautiful to watch.

We are the authorities on fun!

ENVIRONMENT MATTERS

*Where an ad lives is just as important as who it reaches, maybe more.**

Advertisers who limit themselves to audience buying and measure ROI only by hard metrics, run the risk of placing ads in front of people at a time when they aren't engaging or responding... or worse, placing their brand in bad company.

*Jon Steinlauf, president-national ad sales, [Scripps Networks](#) 2017 Ad Age

ENVIRONMENT MATTERS

Brands need to communicate with consumers in the environments that best match their values, and at the times when consumers are ready to move along the path to purchase.*

*Zenith The ROI Agency June 11, 2019

Close to the Point of Purchase

Great marketers shift investments to where conversion performance is highest... closest to the time of purchase by consumers.*

In our markets, that means targeting visitors who are nearby, looking for the best ways to spend their money. We are literally in their room with them... as close to the point of purchase as you can get.

LODGING INDUSTRY REPORTS

The TV is the design and media center of the room. It's the first thing guests see and has the greatest impact on the overall impression of an establishment. Luxury or affordable, resort or hotel, the #1 guestroom technology request is WIFI and #2 is HD TV.

KANTAR INDUSTRY REPORTS

“The big screen is making a comeback, bigger and better than before.” TV is the proven brand-building medium: the dominant cultural and advertising channel of choice. Far from killing television, the internet is now part of the TV and video ecosystem. Smart TV penetration has grown from under 10% to nearly 40% in four years.

We help our clients navigate the complex and ever-changing art of social media content management with an arsenal of experience, skill and creativity... backed up by a massive video library accumulated over three decades.

Longer Videos Mean Higher Engagement

Wochit's Social Index, reveals videos longer than 90 seconds see 78.8% more shares and 74.6% more views when compared to videos of other lengths. There was also a correlation between the number of videos published on social platforms and the number of followers of that page. Publishers that increased their video posting saw their follower numbers increase accordingly.

BLEISURE TRAVEL ON THE RISE

A recent survey suggests 'Bleisure' travel has been increasing over the past few years. A study found that 81% of Millennials said they would "probably" add personal time to a business trip, compared to 56% of Gen-Xers and 46% of baby boomers. In a survey by Great Hotels of the World, which targets the business market, 75% of respondents said they extended business trips for leisure, in most cases multiple times in a year.

Generation Z is Not the Next Big Thing*

Marketers are shifting focus from age to mindset, behavioral change and disposable income.

We are most receptive to new things during life changes. Historically, those changes happened before age 35, but we live longer now; we have life changes far into our 70s and 80s. Just targeting the young is no longer enough.* Half the babies born in wealthier countries since 2000 may reach age 100.**

Generation Z is Not the Next Big Thing*

The rules are also changing when it comes to disposable income. Today, young people struggle to find work and don't have the spending habits of previous generations.* 16 to 19 year olds will represent just 26% of the labor force in 2024, compared to 52% in 2000.** Older generations are now determined to enjoy life and embrace new things. They have money, and they spend it!
